Windmills with panoramic sea views - near S. Brás

The view from these two old windmills is simply breathtaking, with the ocean clearly visible on two sides of the plot, coupled with open views of the Algarve countryside, you really have to see it to believe it.

The access to the mills is tarmac (apart from the last 200 metres), electricity and telephone services exist in the area and the mills are private whilst not being isolated.

Each of the windmills can be increased in size, to allow you to create two individual houses. The windmills are also for sale separately, so it is possible to buy one windmill with a dedicated plot of land. A really genuinely unique opportunity, with views that have to be seen to be believed.
